IN THIS BOOK YOU WILL FIND CONFIDENTIAL INFORMATION ON OUR 2027 MOTO O'NEAL PRODUCT LINE.

WHILE THIS BOOK CONTAINS THE MAJORITY OF NEW PRODUCTS WITHIN THE LINE, ADDITIONAL ITEMS MAY BE ADDED AT A LATER DATE.

PRICING, AS WELL AS FINAL PRODUCT COLORWAYS, MAY BE SUBJECT TO CHANGE. ANY CHANGE WILL BE PROVIDED TO YOU IN WRITING WITH AS MUCH ADVANCE NOTICE AS POSSIBLE.

PROVIDING O'NEAL WITH YOUR PRE BOOK ALLOWS YOU TO RECEIVE SPECIAL PRICING PROGRAMS. FURTHER, YOUR PRE BOOK ORDER ASSURES YOUR FULFILLMENT WHEN THE NEW 2027 LINE IS RELEASED. WE THANK YOU FOR YOUR CONTINUED BUSINESS AND SUPPORT!

IN CASE OF ANY QUESTIONS, PLEASE DO NOT HESITATE TO CONTACT YOUR O'NEAL REPRESENTATIVE.

THANK YOU FOR CHOOSING

Automatically
calls for help
when you're no longer
able to do so.

O'NEAL helmets now come with **QUIN's intelligent safety technology** ensuring help is on the way, even when you can't call for it. In the event of an accident, your emergency contacts are automatically notified, and the emergency centre is alerted to send help immediately.* All you need is the **QUIN device** and the app

FEATURES OVERVIEW

EMERGENCY QUICK RELEASE SYSTEM
E.Q.R.S. emergency cheek pad system allows quick, safe cheek pad removal for easier helmet removal in emergencies, aiding first responders and reducing risk of further injury.

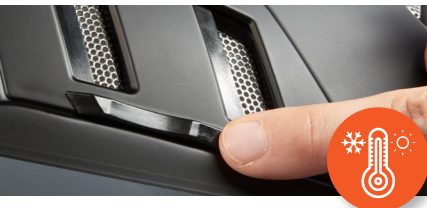

BREAK-AWAY SCREWS
Break-away-screws are specifically design to break after an impact on the visor of the helmet. By breaking away forces to the head are reduced. It provides additional safety in case of a crash.

ROTATIONAL IMPACT SYSTEM
IPX® are strategically placed alongside the EPS of the helmet and designed to reduce head injuries caused by rotational- and low speed impacts during crashing.

GOPRO® MOUNT
The GoPro® Mount allows you to attach all devices with a GoPro® adapter directly. The mount is screwed directly to the designated mount to ensure a stable attachment. It's flexibly adjustable to find the optimum recording angle for rides and centrally positioned.

VENTILATION
Adjustable and closable ventilation channels for individual airflow.

QUIN SMART SAFETY SENSOR INSTALLATION
Multifunctional Smart sensor for automatic emergency call, recording, transmitting accident and driving data. More information on page 4 / 5 or online: <https://www.oneal.eu/en/quin-system>

HYDRATION HOSE GUIDE
Easy operating click in device to securely fix your hydration hose on your helmet.

BLUETOOTH-READY
There are pre-formed cutouts for optional speakers in the ear area (Bluetooth device not included).

AIRFLAPS™
AIRFLAPS™ increases ventilation by lifting the Goggle off the face. Maximum airflow without sacrificing protection with simple installation with 3M double face fixation. They can be operated single handed during riding and is compatible with any MX Goggle. The distance between Goggle & face can be adjusted up to 10mm.

FEATURES OVERVIEW

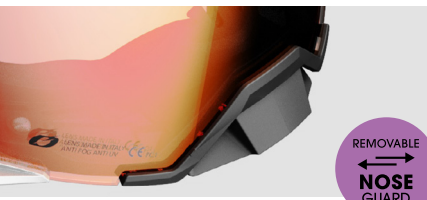

TEAR-OFF PINS
Tear-off pins are mounted on the outside of the lens to incorporate tear-off films, which are transparent, removable layers protect the main lens from dirt and debris, and can be quickly peeled off during use to restore clear vision.

ANTI-FOG & ANTI-SCRATCH COATING
Anti-fog and anti-scratch coatings prevent fogging and protect goggles from scratches. The anti-fog coating ensures clear vision in humid conditions, while the anti-scratch coating increases the durability of the lenses.

NOSE EMBOSSING
Nose embossing refers to the raised or contoured design added to goggles around the nose area. This feature improves comfort and fit by providing better contact with the face, helping to create a secure seal and reduce pressure points.

REMOVABLE NOSE GUARD
Easy to apply nose cover for additional protection on your goggle.

CE STANDARD
All products meet the necessary standards for safety, performance, and quality. CE certification for PPE (Personal protective equipment) items involves compliance with specific directives and standards, such as the Personal Protective Equipment Regulation (EU) 2016/425. Depending on the category there are different standards and different protection levels.

CONCEPT

- 1. All-new MX goggle for high-performance riding
- 2. Base concept & lens sharing with B-22
- 3. Easy lens exchange via outrigger locking mechanism
- 4. Minimalistic modern frame with wide field of vision
- 5. 50 mm strap with modern design
- 6. Optimized ventilation & airflow

FEATURES & SAFETY

- 7. 1.8 mm injected polycarbonate lens, high impact resistant
- 8. Enhanced field of view
- 9. Anti-scratch & anti-fog coating
- 10. 100% UV filtering lenses
- 11. Compatible with 2025 O’NEAL B-22 lenses
- 12. Frame with extended outriggers for ergonomic fit
- 13. Adjustable strap with silicone application for secure hold
- 14. Triple-layer profiled foam with nose recess for comfort & breathability
- 15. Integrated tear-off pins
- 16. Removable nose guard included
- 17. Spare lenses available (clear, gray, yellow, silver mirror, radium red, blue & gold)
- 18. Meets EN1938 & exceeds ANSI standards
- 19. Includes goggle bag for safe storage

B-22

CONCEPT

- 1. All-new MX & MTB goggle for highest demands
- 2. Base concept & lens sharing with B-33

FEATURES OVERVIEW

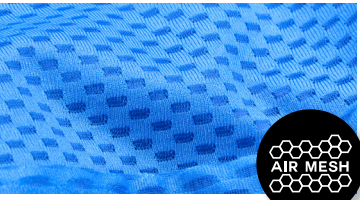

INFINITY COLLAR & CUFF DESIGN
Infinity collar and cuff design for ultimate comfort, performance and features a seamless, flexible construction that enhances comfort and fit.

ZIPPED POCKETS
Hidden secure side back pocket in seam with zipper closure. Handy for stashing key, bank card, lift pass, etc

360-DEGREE-ADJUSTABLE BELT
360-degree adjustable belt. Even pressure around the entire waist for optimum fit and comfort.

AIR MESH
Mesh panels for extra ventilation, comfort and designed to enhance breathability and airflow. Their advanced design promotes moisture management and temperature regulation

STRETCHING MATERIALS
4-way-stretch for increased freedom-of-movement and comfort while riding

EXTENDED TAIL WITH SILICONE PRINTING
Silicone printing on the inside of waistband to help grip the jersey when tucked in and prevent it coming out while riding.

JERSEY

FEATURES

- 1. Ultra-lightweight: 198 g (size L)
- 2. 4-way stretch performance fabric
- 3. Laser-cut vents on chest, arms & sides
- 4. Seamless, welded arm construction
- 5. Stretch back panels for enhanced mobility
- 6. Infinity collar & cuffless sleeves with stretch lining
- 7. Extended mesh tail with silicone gripper
- 8. Strategic underarm, shoulder & tail vents
- 9. Tagless neck for added comfort

PANTS

FEATURES

- 1. Lightweight, durable fabric with stretch panels
- 2. Pre-curved legs for optimal fit
- 3. Air-flow rubber knee patches
- 4. Laser-cut perforations & silicone grippers
- 5. 360° adjustable belt for secure fit
- 6. Hidden zippered hip pocket
- 7. Soft silicone waistband
- 8. Genuine leather knee protection with padding
- 9. Quilted 900D rear saddle for comfort & grip
- 10. Triple stitching in critical areas for durability
- 11. Ultra-soft half liner (to knee)
- 12. 4-way stretch knees & 2-way stretch calves (brace compatible)
- 13. Enhanced leather heat shield

REVOLUTION
NANOFRONT

PALM-SAVER

FEATURES OVERVIEW

BREATHABLE
FABRICS

BREATHABLE FABRIC

Breathable fabrics are lightweight materials designed to enhance airflow and moisture management. Their advanced technology ensures comfort by keeping the wearer cool and dry, making them ideal for various activities and climates.

SLIP-ON
ENTRY

SLIP ON ENTRY

Slip On Entry gloves feature a lightweight design that allows for easy on and off without a ratchet mechanism. This advanced construction ensures a comfortable fit and quick access, making them convenient for various tasks. by rotational- and low speed impacts during crashing.

TPR
PATCHES

TPR PATCHES

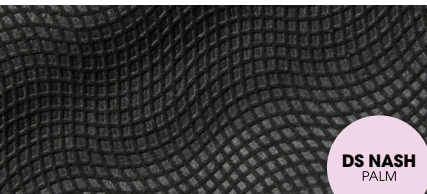

Additional rubber applications on outer glove shell. TPR Patches are lightweight, high-performance components made from thermoplastic rubber, providing excellent durability and flexibility. They are abrasion-resistant, waterproof, and offer a secure grip.

NANOFRONT™
PALM

NANOFRONT PALM MATERIAL

Thin high grip palm material offers unrestricted feel and control and maximum comfort. NanoFront Palm is a lightweight, high-performance material made from ultra-fine fibers, providing superior grip and touch sensitivity. It's durable, moisture-wicking, and resistant to wear. Its advanced technology ensures a comfortable fit while maintaining performance in various conditions.

DS NASH
PALM

DS NASH PALM MATERIAL

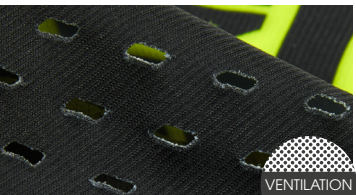

DS Nash Palm is a durable, lightweight material made from palm fibers. It offers excellent grip, moisture resistance, and eco-friendly properties, making it a popular choice for high-performance gloves and equipment.

SEAMLESS
CUFF

SEAMLESS CUFF

Seamless cuffs are designed for a comfortable fit without bulky seams, enhancing flexibility and reducing irritation. Their advanced construction provides a sleek look while ensuring optimal performance and ease of movement.

VENTILATION
HOLES

VENTILATION HOLES

Ventilation holes are strategically placed openings designed to enhance airflow and breathability. Their advanced design improves comfort by promoting moisture management and temperature regulation during various activities.

ROLLOVER
FINGERTIPS

ROLLED OVER & SILICON FINGERTIPS

Laser cut venting to promote airflow and cooling along with perspiration moisture escape for increased comfort while riding.

CARBON

CARBON FIBRE KNUCKLE PROTECTION

Carbon Fibre Knuckle Protection offers lightweight, high-strength defense for enhanced safety during impact. Its advanced design ensures flexibility while maintaining durability, making it ideal for protective gear in demanding environments.

BUTCH CE

CARBON GLOVE

	RMX ADVENTURE
	RSX ADVENTURE
	RCX URBAN

FEATURES OVERVIEW

NYLON INSERT
Stiffness provided by lightweight nylon lasting board with added fiberglass. It offers maximum strength while maintaining flex-abilities.

PP INSERT & STEEL SHANK
Integrated steel shank for ultimate safety and stability.

REMOVABLE PU FOOTBED
Ergonomically pre-shaped and anti-sweat treated soft PU footbed, designed for a superior comfort and additional damping.

REMOVABLE EVA FOOTBED
Lightweight and removable EVA footbed.

AIR MESH LINING
Air mesh fabrics. Increased comfort, enhanced ventilation and moisture-wicking properties by using mesh fabrics.

MICROFIBER
Textured microfiber.

REINFORCED OUTSIDE TOE AREA
Enhanced protection with additional plastic toe reinforcements.

TEXTURED GRIP SHIFT PLATE
A textured forefoot area provide excellent shifting grip without slipping.

RMX PRO BOOT

CONSTRUCTION

- 1. Dual-compound rubber sole for grip, durability & comfort
- 2. Lightweight nylon lasting board with fiberglass for balanced stiffness & flex
- 3. Integrated steel shank for stability
- 4. Co-injected, durable shin plate with lightweight upper construction
- 5. Multiple reinforcements on foot, heel & calf for support & side stability
- 6. Plastic polymer parts for stability, grip & abrasion resistance
- 7. Anatomical heel cup & molded ankle padding for comfort & protection
- 8. Additional reinforced toe area
- 9. Soft PU footbed, pre-shaped & anti-sweat treated for comfort & damping
- 10. 3D mesh inner lining for ventilation
- 11. Soft technical gaiter keeps water & dirt out
- 12. Heat-resistant suede microfiber inner burn guard

SAFETY & FEATURES

- 13. Self-aligning metal buckle system with 4 adjustable & replaceable buckles
- 14. Textured surface for improved shifting grip
- 15. High-grip rubber flap for secure closure
- 16. Certified: EN13634:2017 (maximum protection level)

LEATT 3.5
ALPINESTARS TECH 3

PROTECTION

IPX .D

MAXIMUM AIRFLOW MEETS RELIABLE PROTECTION

Engineered at the microscopic level using **TPE – a 100% recyclable, lightweight, soft and flexible** material. At the core: a **non-Newtonian dilatant compound** that stays soft in motion and stiffens on impact for targeted protection.

Patented **volumetric lattice** with **3D overfolding** prevents penetration and distributes impact across layers. The **chimney effect** enhances breathability by directing warm air upward.

THE NEXT LEVEL OF IMPACT PROTECTION

Developed over a 2 year period, working with leading materials specialists and top DH and MX riders, this new impact foam technology offers unsurpassed levels of protection whilst maintaining freedom of movement, comfort and dexterity when riding.

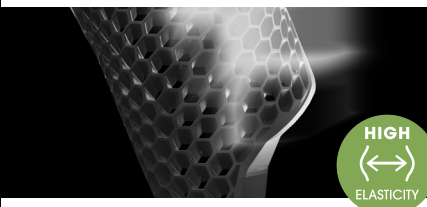

Exceeding CE EN1621-3 standards for motorcycle protection.

Independent testing was conducted by Ricotest, together with DolomitiCert, the leading laboratory in Europe, who are responsible for testing many of the leading brands of protection on the market.

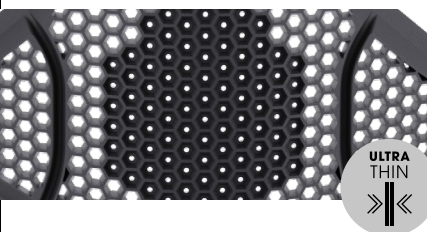

FEATURES OVERVIEW

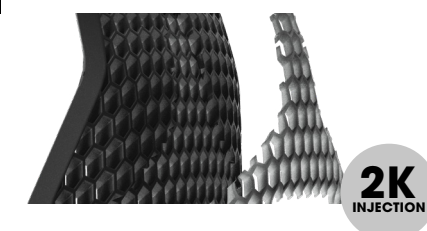

LEVEL I & II
The protector pad range meets the EN Level I and Level II standards. Level II is the highest level of impact protection available. This certification ensures that the pads provide superior impact absorption and safety in accordance with rigorous industry benchmarks.

FLEXIBILITY
Lightweight TPE and adaptive geometry allow full freedom of movement flexible in motion, protective on impact.

ULTRATHIN
Ultrathin protectors are designed to maximize flexibility and elasticity, allowing the protective pads to conform seamlessly to the body's movements.

2K INJECTION
We have integrated buckles and rigid components through advanced 2K injection molding technology. This approach ensures superior usability, combining robust fastening systems with enhanced bending protection, and thereby offering a level of flexibility in the protection range that surpasses all current market competitors.

NON NEWTONIAN
The pad incorporates non-Newtonian dilatants, which enable the protective material to stiffen upon impact while remaining soft when not under stress. This smart material design allows for pads that are flexible and adapt their microstructure in response to impacts, providing dynamic comfort and enhanced protection.

IMPACT TPE GEL
TPE shock-absorbing materials can be recycled and offer premium, slim protection without compromising safety, as proven by our laboratory testing.

CRASH CELLS
TPE shock-absorbing materials can be recycled and offer premium, slim protection without compromising safety, as proven by our laboratory testing.

FEATURES OVERVIEW

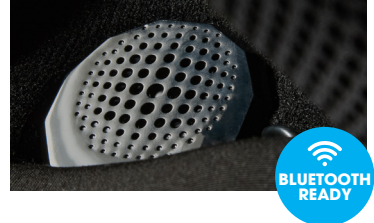

EMERGENCY QUICK RELEASE SYSTEM
E.Q.R.S. emergency cheek pad system allows quick, safe cheek pad removal for easier helmet removal in emergencies, aiding first responders and reducing risk of further injury.

MICROLOCK CLOSURE
Microlock is an easy to operate ratchet chin strap closure with precise adjustment and secure fit.

PINLOCK® FOG FREE SYSTEM
The Pinlock 30 creates a double shield system through a silicone seal between the visor and the Pinlock insert lens, forming a double-lens solution that prevents fogging.

BLUETOOTH-READY
There are pre-formed cutouts for optional speakers in the ear area (Bluetooth device not included).

INTEGRATED SUN VISOR
Additional internal visor underneath the main visor ensures perfect visibility in bright and sunny conditions.

QUIN SMART SAFETY SENSOR INSTALLATION
Multifunctional Smart sensor for automatic emergency call, recording, transmitting accident and driving data. More information on page 4 / 5 or online: <https://www.oneal.eu/en/quin-system>
